**ACTIVITY : HST --- Protocol (Protocol Development)**

SCHEDULED START: Oct-01-2002      SCHEDULED COMPLETION: Sep-30-2005      ACTUAL COMPLETION:

Childhood Leukemia and Birth Defects

ATSDR is planning to conduct an epidemiologic study to further explore the relationship between contaminated drinking water and birth defects or childhood cancer among the survey population. The protocol has been written and sent for peer review. A response to peer review has been completed and was sent to the Agency Associate Director of Science.

The progress report was completed and released during the fourth quarter of FY 2003.
