

U.S. ARMY CENTER FOR HEALTH PROMOTION
AND PREVENTIVE MEDICINE-NORTH
(USACHPPM-NORTH)

Mission

Enhance readiness by providing force health protection services to counter disease, injury, occupational and environmental health threats to Army units and installations in an 21-state region of the United States.

U.S. ARMY CENTER FOR HEALTH PROMOTION
AND PREVENTIVE MEDICINE-NORTH
(USACHPPM-NORTH)

Mission Essential Task List (METL)

- ◆ Maintain a professional, technically competent staff of soldiers and civilians.
- ◆ Provide preventive medicine support in the areas of medical entomology, environmental health engineering, sanitation, industrial hygiene and occupational health, and PM readiness planning and training.
- ◆ Provide trained individuals to support world-wide deployment missions and medical response teams.

U.S. ARMY CENTER FOR HEALTH PROMOTION
AND PREVENTIVE MEDICINE-NORTH
(USACHPPM-NORTH)

Vision

Prepare installations, units, and organizations to provide soldiers for world-wide contingencies who are **fit, healthy, and ready** to succeed in any operation through enhancement of total force health. Protect military members and their dependents who work and reside on installations from illness and injury.
